About Me

Computer Science graduate and current MBA candidate with a strong foundation in technology, business strategy, and data-driven decision-making. Skilled in Python, ASP.NET Core, and SQL, with extensive experience in PostgreSQL and MS SQL for developing efficient, scalable solutions. Proficient in backend development, database optimization, and analytics using tools like Power BI and Matplotlib. Combining technical expertise with business insight, I aim to contribute to roles that connect technology with broader organizational objectives.

Work Experience

Software Developer

September 2025 – Present

Ultimate IT Solution Ltd.

- Develop and maintain full-stack **ASP.NET Core** web applications and **.NET APIs**.
- Build and integrate **Python APIs (FastAPI)** for automation and data-driven solutions.
- Design, optimize, and manage databases using **SQL Server**.
- Collaborate with cross-functional teams to deliver scalable enterprise solutions.

Junior Programmer

March 2024 – August 2025

Genuine Technology & Research Limited

- Developed automation, ERP, and HR modules including payroll, finance, manpower planning, budgeting, and workforce management.
- Implemented salary processing workflows and integrated payroll with attendance and planning systems.
- Built and maintained **.NET websites**, **.NET APIs**, and **Python APIs (FastAPI)**.
- Designed and managed databases using **SQL Server** and **PostgreSQL**.
- Utilized **Python**, **.NET Core**, **JavaScript**, and **jQuery** for feature development and integration.
- Performed backtesting, data analysis, and managed historical stock market datasets.

Project Associate

February 2023 – December 2023

Quantanite

- Performed data processing, content moderation, and data entry tasks.
- Regularly reported to supervisors and managers, ensuring workflow efficiency.

Teaching Assistant

July 2022 – December 2022

International Islamic University Chittagong

- Assisted faculty members in academic activities and classroom management.
- Supervised students, conducted lab classes, and facilitated discussions.
- Evaluated lab reports and assignments, ensuring academic standards.

Education

Master of Business Administration (On Going)

2024–Present

University Of Chittagong

- Major: OSM

Bachelor of Science in Computer Science and Engineering

2023

International Islamic University Chittagong

- CGPA: 3.499/4.0

Projects

InventoryBase – Inventory Management System

Live Demo • [GitHub Repository](#)

Built and deployed a full-featured inventory and stock management platform on a 3-layer clean architecture (ASP.NET Core MVC, EF Core, SQL Server). Implemented products, purchases, sales, expenses and suppliers with a real-time stock ledger, role-based authentication, and server-side data tables.

Blood Management API Project

[GitHub Repository](#)

Developed an API-driven web application for managing blood donor information and performing CRUD operations. The frontend interacts directly with API endpoints for seamless data handling.

SQL Data Analysis on Sales and Production

[GitHub Repository](#)

Performed SQL-based analysis of sales and production data to reveal business insights for optimizing operations.

Technical Skills

- **Programming Languages:** Python, SQL, C, C++, C#, JavaScript, HTML, CSS, LaTeX
- **Databases:** MS SQL, PostgreSQL, SQLite, MySQL, Oracle
- **Tools & Technologies:** Power BI, ASP.NET Core, FastAPI, Pandas, Matplotlib, Docker, AJAX, jQuery, Tabulator, Git (Version Control)
- **IDEs:** VS Code, Visual Studio, PyCharm, SQL Server Management Studio, Jupyter Notebook, Code::Blocks
- **Microsoft Office:** MS Word, PowerPoint, Excel, Outlook
- **Google Workspace:** Gmail, Meet, Drive, Docs, Sheets, Slides
